FILER TOWNSHIP AND LITTLE RIVER BAND TO PARTNER ON SEWER PROJECT

FILER CHARTER TOWNSHIP – Filer Charter Township, the Filer Township Downtown Development Authority (DDA) and the Little River Band of Ottawa Indians have agreed to partner toward establishing wastewater treatment capacity in Filer Township's DDA district, primarily along the US 31 corridor. Pending completion of agreements required for the project, the system will be built under the direction of Filer Township and will ultimately connect with LRBOI's wastewater treatment facility located on Tribal property near the intersection of US 31 and M-22. LRBOI recently doubled the capacity of the facility to treat wastes.

The partnership resulted from more than a year of work involving a Filer Township Ad Hoc Sewer Committee to examine the need, service area and treatment and financing options for creating wastewater treatment capacity. On February 3, 2015, the DDA agreed with and recommended that the Township Board support findings of the Ad Hoc Sewer Committee to proceed to work out an agreement with LRBOI to achieve the wastewater treatment goals of the Township and to hire two attorneys, one to work on the agreement with LRBOI, the other to work on required bonding for the project. On the same day, the Township Board received and supported the recommendations from the DDA, including continuing the work of the firm Wade Trim in the project which will involve assistance in gaining project financing through USDA Rural Development.

“This is a tremendous opportunity for Filer Township that resulted from a process we began over a year ago,” said Filer Township Supervisor and DDA member Terry Walker. “We could not be more pleased to be partnering with the Little River Band in a way that is a win-win for all parties, including the residents of Filer Township.”

Walker said that the DDA and Township started a deliberative effort in 2014 that involved selecting the firm Wade-Trim through a competitive process to complete several methodical steps to confirm and assess the location, need and options for establishing sewer capacity to serve their commercial district. The steps included: re-examining the potential sewer service area; confirming the need for wastewater treatment based on conservative economic development projections; assessing the pros and cons of options, including a Township-owned and operated facility and connecting with the City of Manistee to provide wastewater treatment capacity. The Township determined that the option to connect with the City was not financially viable.

“We are satisfied that this objective, deliberative process led us to the best option in all respects,” Walker said, “including the affordability of the option for the DDA and residents.”

Walker said that work is underway with Wade-Trim and the U.S. Department of Agriculture, Rural Development to secure a grant that could cover up to 45 percent of the total cost of project.

“We are pleased that Filer Township originally approached us as a neighbor to determine our interest and ability to assist them,” said LRBOI Ogema Larry Romanelli. “With our recent expansion of treatment capacity and our experience working through the required agreements with Manistee Township, the timing was right for us to seriously look at this partnership. The project will also enhance the marketability and development of the US 31 corridor and that is good for all of us with a business interest in this area.”

FEB 10th EVENT HELPS STUDENTS APPLY FOR BILLIONS AVAILABLE IN U.S. FOR SCHOOL AID

MANISTEE, MICHIGAN - A new event to help Manistee County students pay for college will be held February 10, 2015 from 3 p.m. to 7 p.m. at the West Shore Hospital Education Center, located at 1465 East Parkdale, Manistee, MI 49660.

Federal aid experts from three area colleges, counselors and volunteers will help students and families complete a Free Application for Federal Student Aid, also known as FAFSA. The event is hosted by Launch Manistee, West Shore Community College, Baker College, Northwestern Michigan College and all six Manistee County High Schools. During the 2014 year, over \$191 billion was awarded to students in the U.S. seeking financial help to pay for college.

"When we co-hosted College Application Week, 96 percent of Manistee County high school seniors submitted at least one college application," said Mary Ann Behm, Launch Manistee Program Coordinator. "Every student who did that should join us on February 10th to complete a FAFSA.

While students can complete FAFSA at any time, on Feb. 10 we'll have all the help they and their parents need to wrap it up and submit it in one location." Students and parents planning to attend on February 10th should call Penny Kiss at 231-398-3626 to schedule appointments for using a computer to complete the FAFSA application and/or to obtain help with completing family income tax information.

Behm said that nearly 80 percent of all of the college aid in the United States relies on completion of the FAFSA application and that students and parents should keep in mind the following:

1. There is no family income level cut-off for federal aid for students for college. Regardless of how much money your family earns, you will not know what federal aid you qualify for unless you complete the FAFSA.
2. No one can justifiably say they did not apply through the FAFSA process because the forms are difficult to complete. That is exactly why the February 10 event is being held.
3. Parents do not need to have their income taxes completed or filed to enable their child to complete the FAFSA application. Estimated information may be used. Advisors will be available on Feb. 10 to help with tax information needed for the FAFSA application.

"Students and families should also keep mind in the facts about competing for good paying jobs in today's economy," said Betsy Evans, Business Director for the Alliance for Economic Success. "Only 30 percent of the college age individuals in Manistee County complete college. By 2020, it's estimated that 65% of all jobs will require some sort of postsecondary education. All of us - families, students, schools and community members - need to be unified around the imperative to reverse the trend of college completion in Manistee County. In many ways, the tax base and economic attractiveness of the County depends on it."

Parents who attend and plan to complete the FAFSA should bring:

- Social Security cards for parents and students
- 2014 taxes if they have already been filed; a copy of 2013 taxes if not

Copies of W-2 forms and other wage and earning statements for 2014

A local CPA will also be available during this event for completion of straight forward taxes for students and families for a nominal fee. People who are interested in completing both their taxes AND the FAFSA during this event should bring:

- Proof of identification (photo ID); Social Security cards; Birth dates for tax filers and dependents
- Wage and earning statements (Form W-2, W-2G, 1099-R, 1099-Misc) from all employers
- A copy of last year's federal and state returns, if available
- Proof of bank account routing and account numbers for direct deposit such as a blank check
- Total paid for daycare and the daycare provider's tax identifying number
- Forms 1095-A, B or C Affordable Health Care Statements

To file taxes electronically on a married-filing-joint tax return, both spouses must be present to sign the required forms.

Behm said that students and families who can't attend the February 10th event, can complete their FAFSA application at any time and that they should see their school counselor or contact her directly if they have questions or need help.

INSPIRE

Pre-College Program

2015

The INSPIRE Pre-College Program is a full scholarship open to Native American, Alaska Native, and Native Hawaiian rising junior and senior high school students, including 2015 anticipated graduates, who want to spend 3-weeks on the George Washington University (GW) campus to learn about intergovernmental relations between tribal governments and the federal government.

The program centers on a full-day, experiential undergraduate course taught by GW faculty, Native Politics and the American Political System, which will offer opportunities for students to meet and interview influential Native advocates who work in Washington, D.C.

As an added bonus, INSPIRE students live on campus and participate in recreational programs with the community of high school students enrolled in GW Pre-College programs.

What does the INSPIRE scholarship cover?

- One course in Native Politics and the American Political System (3 undergraduate credit hours)
- Room and board at GW
- Airfare to and from Washington, DC (one round-trip ticket)
- All required textbooks
- Required local travel related to the course

The INSPIRE Pre-College Program is made possible by a generous grant from the AT&T Foundation.
